SUMMARY

Third-year B.Tech Computer Science student focused on Software Engineering and Full-Stack Web Development, with hands-on experience in React.js, Django, REST APIs, Python, JavaScript, and SQLite. Experienced in building responsive frontend applications and full-stack projects, including authentication, API integration, and database management. Strong foundation in programming and problem-solving, with a focus on writing clean, maintainable code. Seeking a Software Engineering Internship to apply technical skills and contribute to real-world products.

PROFESSIONAL SKILLS

- Problem Solving
- Logical Thinking
- Quick Learner
- Time Management
- Leadership
- Team Collaboration

TECHNICAL SKILLS

C, Python, JavaScript, HTML5, CSS3, SQL
React.js, Tailwind CSS, Django, Django REST Framework

SQLite

PROJECTS

Full-Stack Projects :

Expense Tracker

Tech Stack : React.js, Django, Django REST Framework, SQLite

- Developed a full-stack expense management application with a React.js frontend and Django REST API backend.
- Implemented user authentication, expense creation, management, and expense tracking functionality.
- Integrated REST APIs to enable communication between the React frontend and Django backend.
- Used SQLite for storing and managing user and expense data.

React Projects :

Tech Stack : HTML5, CSS3, JavaScript , React.js

- **Password Generator** : Built a React-based password generator with customizable length and character options, and one-click password copying.
- **Responsive Landing Page** : Developed a multi-page React website using React Router for client-side navigation.

Python Mini Projects :

Tech Stack: Python

- Developed command-line applications including Quiz Game, Number Guessing Game, Text Adventure Game, and Password Manager.
- Applied core Python concepts including conditional statements, loops, functions, file handling, and input validation.
- Focused on writing clean, modular, and maintainable code.

Frontend Web Projects :

Tech Stack : HTML5, CSS3, JavaScript

- **Amazon Clone** : Developed a responsive e-commerce interface using HTML5 and CSS3.
- **Random Color Generator** : Built a JavaScript-based tool generating random colors and displaying corresponding color codes.
- **Random Image Generator** : Developed a dynamic image generator with a Load More feature.
- Built multiple JavaScript projects including **Temperature Converter**, **Digital Web Clock**, **Real-Time Character Counter**, **Dynamic Calendar**, **Interactive Heart Animation**, **Dark Mode Toggle**, **and** **Auto Text Generator**

EDUCATION

- **Bachelor of Technology in Computer Science** **Sep 2024 – Sep 2028**
  Vidya collage of Engineering (AKTU), Meerut, UP
- **Completed 10th and 12th**

CERTIFICATIONS & ACHIEVEMENTS

- Participated in TECHWIZ Technical Quiz 2024
- 1st Position – Tech Quiz Competition 2025
- Top 10 Team – Smart India Hackathon (SIH) 2025 Internal Hackathon
- Head Boy (Class XI & XII)
